Course Description

The Advanced Kimber 1911 Armorer's School is intended for those students that desire a detailed understanding of the 1911 design with particular attention to the functional dynamics of Kimber's 1911 variants. This course requires the successful student to properly fit all internal parts of the Kimber 1911 pistol. Students will be required to demonstrate the proper diagnosis and repair of the 1911 pistol. Firearms, parts and tools are included for use in the class. A comprehensive Advanced Kimber 1911 Armorer's Manual is included in the tuition. Certification is valid for 3-years. Total hours: 40. Armorer's Tool Kits are available for \$199.95 – please add to your tuition payment to pre-order your tool kit.
